

## STRATEGY ANALYST

### Who are we? What do we do?

LOOK DEEPER. SEE CLEARER. ACT SMARTER.

AMPLYFI is on a mission to transform business intelligence and research. We're bringing our expertise in artificial intelligence and deep-web technologies to modernise the stayed and clunky approaches that organisations have relied on for years. AMPLYFI's flagship platform, DataVoyant, empowers companies to make data-driven decisions based on key insights drawn from the vast wealth of information sitting within the depths of the internet.

To achieve our goal, we've assembled a team of the best and brightest, with decades of experience in machine learning, software development and business. We are ambitious, driven and absolutely committed to putting our game-changing technologies in the hands of the world's largest organisations.

We've already begun this process. We're working with some of the leading names in industries including banking, pharmaceuticals, defence, and energy – and this is only the beginning. A testament to the excitement AMPLYFI is generating among businesses is the need to hire a new strategy analyst to team. To keep our delivery at the high levels to which our clients have become accustomed, we will only hire the most talented and driven that the market has to offer.

### What you'll be doing?

As a strategy analyst, you will be responsible for:

- Working with the strategy team to support all aspects of client delivery
- Generating expert analysis by leveraging AMPLYFI's AI-driven technology to establish us as a leading provider of business intelligence and research
- Assisting with the management and execution of complex research projects
- Accompanying team members to client meetings and effectively supporting the communication of complex concepts and trends
- Maintaining exceptional standards of accuracy and rigor in a fast-moving, challenging environment, with a commitment to outstanding levels of client service

You'll be based either at our HQ in Cardiff or in our offices in central London.

### Who are you?

To excel in this position, you will have:

- Exceptional analytical skills
- Excellent verbal and written communication skills
- Strong interpersonal skills and the ability to establish rapport and credibility
- Excellent planning and organisation skills
- Previous experience writing reports and delivering presentations is advantageous
- A commitment to high standards, both for work internally and externally with clients
- An ability to comfortably and effectively communicate complex concepts and trends to experts and non-experts alike
- Commercial experience is preferable, but high-quality graduates will be considered
- A willingness to travel when necessary
